Anthony Trollope: The Warden Anthony Trollope

"The Warden" by Anthony Trollope is a simple, short novel dealing with the ethical dilemma of a virtuous man. The Reverend Harding is the warden of a small home providing quarters for 12 retired, indigent workers. The facility is provided for by a trust set up by its founder over two hundred years ago. Income off the land provides revenue for the maintenance of the home and a living for the warden. "The Warden" has traditionally been the benefactor of this income which has increased over the years. The Reverend Harding is a gentle, honest man who has never given thought to his 800 pound annual revenue until a young reformer files suit, claiming the intent of the will is being violated. Harding thinks about the matter and is inclined to resign. The Bishop and Archdeacon argue that he is entitled to the income. The reformer in "The Warden," the lawyers, the church hierarchy and Reverend Harding all have their views on the matter. Author Trollope does not really pass final judgment on his characters; none of them are cast in black and white terms. Though sometimes considered to be one of Anthony Harding's lesser works, "The Warden" is nonetheless an excellent read. From an historical standpoint there was considerable attention being paid to clergy income during this period in England. Trollope's Victorian tale, "The Warden," was very timely in this regard.
