Build a Survival Safe Home: The Ultimate Guide to Building Wilderness Shelters (Survival handbook, survival manual, survival skills) Max White

If an emergency were to drive you from your home and force you to survive in the wilderness, would you be able to do it? Maybe you know enough to scrounge for provisions, but without shelter, survival rate plummets. The necessary skills to keep you alive erode as the exposure to the elements affect your skills of judgment and reasoning. That makes building shelter in any condition or circumstance a vital skill that everyone needs.

Wilderness shelters can be simply constructed, or they can be rudimentary structures with impressive protection from the dangers outside. Having the knowledge necessary to manage no matter the conditions, no matter the terrain puts you at a distinct advantage to those who will be scrambling and desperate.

This brief guide introduces you to several different types of shelters and gives you the necessary insight to be able to survive in the wilderness no matter what situation you find yourself in. Readers will learn which item is of the utmost importance to have in their bug out bags.

Here you will also discover how to:

- Construct free standing structures out of basic materials
- Work in extreme conditions, such as ice and snow
- Adapt natural shelters for temporary usage
- Build complementary items to improve the relative comfort of an emergency shelter
