Chemistry: Structure and Dynamics

James N. Spencer, George M. Bodner, Lyman H. Rickard

Chemistry: Structure and Dynamics James N. Spencer, George M. Bodner, Lyman H. Rickard
Spencer's Chemistry: Structure and Dynamics is the most successful reform project published for the General Chemistry course. The authors have built the text on the recommendations of the ACS's Task Force on the General Chemistry Curriculum and suggestions from the adopters of previous editions. This innovative text provides a sixteen-chapter introduction to the fundamental concepts of chemistry. The material is supplemented by special topics at the end of each chapter. There are three major themes that link the content of the book: the process of science, the relationship between molecular structure and physical/chemical properties, and the relationship between the microscopic and macroscopic levels. Spencer's Chemistry can work successfully in both small and large lecture courses.

With the addition of CATALYST mastery assignments to WileyPLUS, students now have the opportunity to develop even stronger problem solving skills and deeper conceptual understanding. CATALYST empowers students to develop the understanding of essential chemistry concepts needed to work problems they may never have seen before (as opposed to mimicking examples). They develop an understanding of how to assemble the information they need to begin more complex problems and employ strategies to move through them. This skill is absolutely critical in chemistry; students must be able to analyze and approach novel problems and work their way through them.

The Spencer text pairs nicely with Chemistry: A Guided Inquiry, 4th Edition by Richard S. Moog and John J. Farrell. <http://www.wiley.com/college/moog>

From reader reviews:

Shelly Rodriguez:

As people who live in the actual modest era should be revise about what going on or info even knowledge to make these keep up with the era that is certainly always change and move forward. Some of you maybe will probably update themselves by studying books. It is a good choice for you but the problems coming to an individual is you don't know which you should start with. This Chemistry: Structure and Dynamics is our recommendation to make you keep up with the world. Why, because this book serves what you want and want in this era.

Dennis Lewis:

Your reading sixth sense will not betray anyone, why because this Chemistry: Structure and Dynamics guide written by well-known writer we are excited for well how to make book that can be understand by anyone who also read the book. Written with good manner for you, leaking every ideas and writing skill only for eliminate your own hunger then you still skepticism Chemistry: Structure and Dynamics as good book but not only by the cover but also through the content. This is one e-book that can break don't assess book by its cover, so do you still needing another sixth sense to pick this kind of!? Oh come on your reading sixth sense already alerted you so why you have to listening to another sixth sense.

Peggy Gillman:

Are you kind of busy person, only have 10 or maybe 15 minute in your moment to upgrading your mind expertise or thinking skill possibly analytical thinking? Then you are experiencing problem with the book when compared with can satisfy your short period of time to read it because all of this time you only find publication that need more time to be study. Chemistry: Structure and Dynamics can be your answer as it can be read by you who have those short spare time problems.

William Holmes:

In this age globalization it is important to someone to get information. The information will make anyone to understand the condition of the world. The condition of the world makes the information quicker to share. You can find a lot of sources to get information example: internet, newspaper, book, and soon. You will see that now, a lot of publisher that print many kinds of book. The particular book that recommended for your requirements is Chemistry: Structure and Dynamics this e-book consist a lot of the information from the condition of this world now. This book was represented just how can the world has grown up. The terminology styles that writer value to explain it is easy to understand. The writer made some investigation when he makes this book. Here is why this book suitable all of you.
