Linux System Administration, Second Edition (Craig Hunt Linux Library) Vicki Stanfield, Roderick W. Smith

"Most Indispensable Linux Book" --2001 Linux Journal Readers Choice Awards Authoritative Answers to All Your Linux Questions You can rely on the fully updated second edition of Linux System Administration for answers to all your questions about installing, configuring, and administering Linux. Written by two Linux experts, this book teaches you, step-by-step, all the standard and advanced techniques you need to know to set up and maintain a secure, effective Linux environment. Scores of clear, consistent examples illustrate these techniques in detail--so you stay on track and accomplish all your goals. Coverage includes: * Installing a Linux server * Setting up and maintaining user and group accounts * Setting up Linux system security * Sharing files using Samba and NFS * Implementing a backup strategy * Troubleshooting common Linux problems * Setting up the X Window System * Setting up TCP/IP and connecting to the Internet * Setting up a mail server * Maintaining filesystems and partitions * Configuring printers * Improving system performance * Writing shell scripts * Using Webmin for cross-distribution GUI administration The Craig Hunt Linux Library The Craig Hunt Linux Library provides in-depth, advanced coverage of the key topics for Linux administrators. Topics include Samba, Network Servers, DNS Server Administration, Apache, Security, and Sendmail. Each book in the series is either written by or meticulously reviewed by Craig Hunt to ensure the highest quality and most complete coverage for networking professionals working specifically in Linux environments.

The book makes you a lot more confidence because you can know every little thing by the book. So , let me make new experience along with knowledge with this book.

Rita Carter:

As people who live in often the modest era should be change about what going on or info even knowledge to make these people keep up with the era which is always change and advance. Some of you maybe will update themselves by reading books. It is a good choice for you but the problems coming to a person is you don't know what one you should start with. This Linux System Administration, Second Edition (Craig Hunt Linux Library) is our recommendation to help you keep up with the world. Why, because book serves what you want and need in this era.

Bessie Hall:

You can get this Linux System Administration, Second Edition (Craig Hunt Linux Library) by go to the bookstore or Mall. Merely viewing or reviewing it could to be your solve difficulty if you get difficulties for the knowledge. Kinds of this guide are various. Not only by written or printed but can you enjoy this book by simply e-book. In the modern era similar to now, you just looking by your mobile phone and searching what their problem. Right now, choose your personal ways to get more information about your reserve. It is most important to arrange you to ultimately make your knowledge are still upgrade. Let's try to choose suitable ways for you.

Joseph Dolezal:

As a pupil exactly feel bored for you to reading. If their teacher expected them to go to the library in order to make summary for some book, they are complained. Just tiny students that has reading's spirit or real their interest. They just do what the teacher want, like asked to the library. They go to at this time there but nothing reading significantly. Any students feel that reading is not important, boring along with can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this period, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. So , this Linux System Administration, Second Edition (Craig Hunt Linux Library) can make you sense more interested to read.
