This accurate history of the classic Chinese art form comes from a tangram museum owner and his research team, who discovered many treasures, such as the tangram sets used by Chinese mathematicians 2,200 years ago to test Pythagorean theorems. Photos show how to arrange tangram-shaped antique dinner tables for a variety of themes such as mountain ranges and celebration costumes. Among the puzzles for you to solve: Paradoxical Pairs that appear to be identical but differ in a hard-to-detect detail.
