## **Architecture Solutions for E-learning Systems (Premier Reference Source) Claus Pahl**

E-learning is now a prominent form of education that allows for the creation of tailored solutions for different learning styles and requirements. An essential element of e-learning, learning technology systems (LTS) manage the learning environment, learning objects, and resource infrastructures.

**Architecture Solutions for E-Learning Systems** provides fundamental research on the architecture of LTS, discussing such issues as common LTS structures, as well as solutions for specific instructional forms such as knowledge-based, distributed, or adaptive applications of e-learning. Researchers, practitioners, and scholars in such fields as learning-content software development, educational technologies, and e-learning will find this book an invaluable resource.
