An Ancient Wisdom Text Revealed . . .

Both an ancient, "found" wisdom text and a sumptuous, epic novel, Gaia Codex reveals the hidden histories of a world long forgotten, the secret wisdom of an ancient lineage of women, the Priestesses of Astera. Set in a near future of impending societal and environmental collapse, the novel is a tale of hope and remembrance, as well as an inspired vision of humanity's origins and of the potential we hold for conscious evolution.

The Story...

Lila Sophia had heard the whispered tales, stories of an ancient lineage of women, the Priestesses of Astera, who through the rise and fall of civilizations have protected codes of cultural and planetary rejuvenation, the Secrets to Life. Although these women have lived in every culture, few have known of their existence-until now. Born onto a planet in the throes of environmental and social crises, Lila's life implodes when her mother, Dominique, suddenly dies, and Lila is left with a mysterious illuminated manuscript that reveals that Lila is both a priestess and a genetic experiment called the Metamorphosis Project, a fusion of alchemy and magic designed to rebalance humanity's relationship with the Mother Earth. In search of her sister-priestesses and further understanding of her origins, Lila journeys from the mythic countryside of Glastonbury to Delphi, to an ancient hidden temple in the center of Paris, and finally, into the heart of the Amazon jungle. On her quest, Lila learns how to use her mutation to benefit Life. She also must decide between two passionate loves: a wise and beautiful sister-priestess, Rhea, and a mysterious man Theo, who has been waiting for her for millennia.
