Truman Capote and the Legacy of *In Cold Blood*

Ralph F. Voss

Truman Capote and the Legacy of *In Cold Blood* Ralph F. Voss

Ralph F. Voss examines Capote and *In Cold Blood* from many perspectives, not only as the crowning achievement of Capote's career, but also as a story in itself, focusing on Capote's artfully composed text, his extravagant claims for it as reportage, and its larger status in American popular culture.

Voss argues that Capote's publication of *In Cold Blood* in 1966 forever transcended his reputation as a first-rate stylist but second-rate writer of "Southern gothic" fiction; that *In Cold Blood* actually is a gothic novel, a sophisticated culmination of Capote's artistic development and interest in lurid regionalism, but one that nonetheless eclipsed him both personally and artistically. He also explores Capote's famous claim that he created a genre called the "nonfiction novel", and its status as a foundational work of "true crime" writing as practiced by authors ranging from Tom Wolfe and Norman Mailer to James Ellroy, Joe McGinniss, and John Berendt.
