Graduate student Valerie Russell investigates the possible psychological addiction to *Atlantyx*, a popular new computer game. She finds much more than entertainment and it becomes a race against time to save the lives and souls of innocent young people--and herself.

Garland King, vice-director of the School of Psychology, and Drake Benson, a leader in a national campus ministry, urge Valerie to closely examine one game, *Atlantyx*. And she soon learns why. The ministry has tracked seventy-one students, all avid gamers, who have mysteriously disappeared. Coincidentally, the producer of the game has garnered sales in excess of one and a half billion dollars over the past year.

Valerie's graduate work explodes into the challenge of a lifetime. She will investigate this threat that blurs the boundary between reality and fantasy, harming innocent people in its path. Her quest brings with it self-discovery, romance, and more than a hint of danger.
