Romantic poetry deals with the tensions, hopes, and fears of the late 18th and early 19th centuries as felt by a disparate group of men and women. Yet, how do you approach a Romantic poem? What are useful ways to discuss Romantic poetry and what, if anything, do the poets have in common? This completely revised and expanded second edition of *How to Study Romantic Poetry* shows in accessible language how to use some of the recent developments in literary theory to think and write about Romantic poetry with confidence. The book now includes a new chapter on the work of women Romantic poets, including Mary Robinson and Elizabeth Hands.
