An active listener is dedicated to understanding their loved ones. They see the role of listening as just as important to the communication as the role of speaking. With the help of this book you will come to listen with a fresh pair of ears, and an open heart and mind.

You will also listen to body language, and make eye-contact. You will give encouraging feedback, and you will become a master at reading the context and the flow of conversation. You will feel the emotions behind the speaker, and the feelings within their words.

All of this will make you something of a good friend to those around you. Everyone needs someone who can listen. Often you will find discussions on how to talk with confidence, or how to be assertive, but rarely will you find discussions on how to properly listen.

Active listening is a gentle art, and it is also a contagious one. You can expect that once you open yourself to the world of listening, your loved ones will want to listen back.
