Lyme Disease 2014 Epidemic: What Doctors Won't Tell You Because They Don't Know! Gary Yantis
The World Health Organization and the Centers for Disease Control just declared Lyme disease (LD) to be the fastest growing infectious disease in the world! Ten million Americans are infected with another four million expected in 2014! As many as one billion people infected worldwide but less than 10% know they are infected. They just know their "flu-like" crummy feeling never goes away and no doctor has a clue! Well, yes, many do "have a clue" but are terrified to give an LD diagnosis (the book will tell you why doctors are terrified of LD!). The bite of a tiny tick can RUIN YOUR LIFE! Infections have grown 50+ fold since 1992 and are now at the tipping point of exploding into a world-wide pandemic!

This book first "prepares" the body to "get set to get well" then step by step it carefully guides you through the "protocol" you must follow (in order) to lower or end the horrific effects of Lyme!

CAVEAT: I am not a doctor but I'll match my in-depth knowledge of Lyme against ANY "world-class LD expert" who has an MD certificate plus lots of letters after their name. I DO have thousands of hours of practical LD experience and have conversed and "counseled" THOUSANDS also infected with LD. They learned from me and I learned from them! What does that count for? You be the judge. This book is a compilation of those conversations, words from the few doctors some had who truly had useful Lyme disease knowledge and using my years as a research scientist for the AEC putting it all together to actually make sense AND be of use to the millions struggling every day with Lyme disease in REGAINING THEIR LIVES! I write from personal experience and give "suggestions" only.

It took me \$500,000, doctors all over the world and 20 years of pure Hell to FINALLY receive a correct diagnosis! Oops! There is NO CURE! Being treated for all the other illnesses this one competent doctor (there is one!) found in me, I was quickly feeling much better! I would need the strength! As an after thought, I did a brief YouTube video wondering "anyone else have Lyme disease?".

YIKES! THE YOUTUBE SKY FELL IN ON ME! 500 e-mails a day then 1,000. It never stopped! Did anyone NOT have Lyme disease! Some of the stories were heart wrenching! They keep coming!

But I had to find my own ways to lower the effects of LD - it's peeling an onion - one layer at a time - it's taken forever! But I FINALLY reached the center with the help of thousands on YouTube! When I reached 99% reporting "I do feel much better following your guidance!" - it was time to "spread the word". Kindle book.

This book is an easy to read step-by-step guide to REGAIN YOUR LIFE!

I've read three pound college text books that included Lyme disease. Written by scholarly professors with more letters after their name than could fit on a single page! Did I learn enough to pass a college class? Yes and I'd get an "A" as I read each book many times. Somewhere in one of these "door stops" HAD to be an answer! There was not!

I had thousands following me on YouTube. I had plenty of volunteers! I asked a few dozen who had flaming

symptoms of Lyme but had never been tested for LD "please get tested for LD". They each went to a competent LLMD (Lyme Literate MD). Each had been diagnosed with other illnesses (mostly fibromyalgia and MS). You guessed it! They ALL tested positive for Lyme. Why had their doctors never tested them for Lyme? Doctors are "terrified" of Lyme so few test for it (fearing a positive). Boy, did the fur fly! More to come in a future book.

I mentioned I was a researcher for the AEC. Boy, did that experience come in handy! I was a "technical translator and became quite good at it. To the point I turned it into a business (for the next 35 years!). EVERY profession has dozens of specialties. I devoted myself to "technical translation". I made the complex simple-but complete!

I explain Lyme disease leaving nothing out! - how to feel
