In the Jubilee Bible, the usage and context tends to define each key word so you do not have to depend on theological dictionaries or reference materials. Careful attention has been made to properly translate the first usage of each key word and through to the last occurrence. Then, as the word makes its way across the Old Testament and if we make the correct match with the corresponding Greek word in the New Testament, an amazing pattern emerges. The Jubilee Bible is the only translation we know of today that has each unique Hebrew word matched and mated to a unique English word so that the usage (number of occurrences and number of verses where the word occurs) sets forth both a very meaningful number pattern and also a complete definition of what God means by each word without having to be at the mercy of theological spin masters. Translated from the Original Texts in Hebrew and Greek into Spanish by Casiodoro de Reina (1569) and compared with the revision of Cipriano de Valera (1602) Based on the New Testament of Francisco de Enzinas (1543) and on the New Testament (1556) with the Psalms (1557) of Juan Perez de Pineda This material was translated from Spanish into English by Russell M. Stendal and compared with the Old English Translation of William Tyndale (Pentateuch of 1530, Ploughboy Edition New Testament of 1534, Joshua to 2 Chronicles of 1537, and Jonah). It was also compared word for word with the Authorized Version (by King James) of 1611
