Did you know fawns have no scent, an evolutionary defense against predators? And that the eastern grey squirrel is a formidable swimmer, which makes them quite suited for the Sunshine State? And that, unlike other avians, Florida scrub jay families stay together for years, with older siblings helping to feed younger siblings?

Florida Animals for Everyday Naturalists contains everything you want to know about Florida’s furry, feathered, scaled, and shelled friends. With lively personal essays and stunning photographs, Larry Allan introduces you to the array of wildlife you might encounter in your backyard, at the park, or on a jaunt at one of the state’s many wildlife refuges. Each chapter is dedicated to a specific animal, like the bobcat, the river otter, and the caracara, and paired with vivid photos to help you identify these creatures in the wild.

Allan’s fascination with Florida fauna is contagious, and his reverence of nature is unmistakable. While sharing his whimsical, enlightening, and instructive anecdotes, he gently argues for wildlife preservation in Florida and for responsible human-animal interactions.

Perfect for young naturalists, inquisitive trekkers through the Sunshine State, or armchair adventurers, this book will help you appreciate the abundance of life right outside your door.
