# Protein-Ligand Interactions: Methods and Applications (Methods in Molecular Biology)

## **Protein-Ligand Interactions: Methods and Applications (Methods in Molecular Biology)**

A readily reproducible collection of established and emerging techniques for studying the interaction between proteins and ligands, including biochemical/bulk techniques, structure analysis, spectroscopy, single-molecule studies, and theoretical/computational tools. Among the highlights are surface plasmon resonance (SPR) and reflectometric biosensor approaches, high-throughput screening with confocal optics microscopy, single molecule fluorescence and fluorescence correlation spectroscopy (FCS), atomic force microscopy (AFM), crystallography of reaction intermediates, and time-resolved x-ray crystallography. The protocols follow the successful Methods in Molecular Biology? series format, each offering step-by-step laboratory instructions, an introduction outlining the principle behind the technique, lists of the necessary equipment and reagents, and tips on troubleshooting and avoiding known pitfalls.

### **From reader reviews:**

#### **Brian Bottoms:**

Do you have favorite book? In case you have, what is your favorite's book? Guide is very important thing for us to know everything in the world. Each publication has different aim or goal; it means that e-book has different type. Some people sense enjoy to spend their time to read a book. These are reading whatever they take because their hobby is reading a book. Why not the person who don't like looking at a book? Sometime, man or woman feel need book when they found difficult problem or even exercise. Well, probably you'll have this Protein' Ligand Interactions: Methods and Applications (Methods in Molecular Biology).

#### **Randell Easley:**

Nowadays reading books become more and more than want or need but also become a life style. This reading routine give you lot of advantages. The advantages you got of course the knowledge the actual information inside the book which improve your knowledge and information. The data you get based on what kind of book you read, if you want have more knowledge just go with knowledge books but if you want really feel happy read one together with theme for entertaining including comic or novel. The particular Protein' Ligand Interactions: Methods and Applications (Methods in Molecular Biology) is kind of book which is giving the reader capricious experience.

#### **Stephen Rael:**

Reading a book for being new life style in this calendar year; every people loves to read a book. When you study a book you can get a lot of benefit. When you read textbooks, you can improve your knowledge, because book has a lot of information in it. The information that you will get depend on what kinds of book that you have read. If you would like get information about your study, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, such us novel, comics, in addition to soon. The Protein' Ligand Interactions: Methods and Applications (Methods in Molecular Biology) will give you a new experience in reading through a book.

#### **Virginia McNally:**

As we know that book is vital thing to add our know-how for everything. By a e-book we can know everything we would like. A book is a range of written, printed, illustrated as well as blank sheet. Every year seemed to be exactly added. This book Protein' Ligand Interactions: Methods and Applications (Methods in Molecular Biology) was filled with regards to science. Spend your spare time to add your knowledge about your scientific research competence. Some people has various feel when they reading a book. If you know how big good thing about a book, you can experience enjoy to read a publication. In the modern era like currently, many ways to get book that you simply wanted.
