Tim Ferriss is my hero. Tim, if you're reading this, your book has inspired millions, including me. You have taught us a new way to live, and for that we are appreciative.

But you missed a few details, my friend. For any of us who have heard *The 4-Hour Workweek* book (and dream of a four-hour workday), we know the value of instilling Tim's methods in our lives. But there's something lacking in his book. He explains the "why", but in many instances he leaves out the "how". That's where this book comes into play.

In 2011 I had an enormous, life-changing event, and it made me take stock of my life. I realized I needed to change, and Tim's book fell on the fertile soil of my brain. His ideas grew and blossomed, and I've embraced his ideas and concepts in all areas of my life. I know that many of you struggle with the "how", and that's exactly how I want to help you: I want to give you the "how" to complement the "why" in Tim's book, and those efforts are reflected in this book. It's not complete, though, and it may never be.

Technology changes rapidly, and although I'm publishing this today, in three years these ideas may be obsolete. Rest assured I'll work on publishing an updated version, but use these concepts and ideas to get started now. Learn the "how" in order to complement the "why", and you'll be able to adapt to the changing field of living the "new rich" life no matter what changes take place in our world. With that I give you the "how". Start changing your life today, and Tim, thanks again.
